

UNIVERSITY OF
SURREY

Faculty of Health and Medical Sciences

Lecturer/Senior Lecturer Toxicology

£36,532 - £49,096 per annum

Ref: 6823

Lecturer Sleep and Circadian Rhythms

£36,532 - £43,622 per annum

Ref: 6824

We wish to make two full-time academic appointments to enhance our research strengths in Sleep and Circadian Rhythms and in Toxicology. Both of these are 5* RAE rated research themes in the Faculty of Health and Medical Sciences and areas of strategic importance to the University. You will be expected to develop an independent research programme to enhance our established teaching and research strengths.

For the Lecturer in Sleep and Circadian Rhythms, experience of conducting sleep studies on human subjects will be an advantage. You will be expected to deliver teaching in Physiology, Pharmacology or Biochemistry to our BSc and MSc programmes.

The Lecturer/Senior Lecturer in Toxicology will have research expertise in toxicology, safety pharmacology, drug metabolism or toxicopathology, in specific areas that complement our existing research activities. Ongoing collaboration with the pharmaceutical industry would be an advantage, reflecting the close links with industry of the toxicology group at Surrey. You will be expected to deliver teaching in toxicology, safety pharmacology, drug metabolism or toxicopathology to our BSc and MSc programmes.

Excellent facilities and support for translational and basic research are available. They consist of the Surrey Clinical Research Centre with 12 fully-equipped bedrooms and experienced clinical and research staff, as well as core facilities for in vivo studies, genetic profiling including microarray, real time PCR, and high throughput genotyping, proteomics and cell culture facilities.

You will report in the first instance to the Head of the Division of Biochemical Sciences (Professor Susanna Hourani) and ultimately to the Dean of Health and Medical Sciences (Professor John Hay).

Informal discussions may be had with the Head of Division, Professor Susanna Hourani (s.hourani@surrey.ac.uk) or for the Lectureship in the area of Sleep and Circadian Rhythms with Professor Derk-Jan Dijk, Head of the Surrey Sleep Research Centre (d.j.dijk@surrey.ac.uk).

You can apply online at www.surrey.ac.uk/jobs Alternatively, for an application pack contact Christina Kirby on 01483 684596 or email FHMS_HumanResources@surrey.ac.uk quoting the appropriate job reference number.

On making a formal application for these posts, applicants must include a description of current research activities and an outline of the research programme to be pursued on appointment (two pages maximum). When completing the online application form, please ensure you include a supporting statement and either complete the previous work experience and education sections of the application form or submit a CV.

Closing date for both posts: 1 December 2008.

We acknowledge, understand and embrace diversity
